Sonia,

Thank you. I think there is some of this we can use but I am trying to take this away from HP and Israel. What is concerning to me is that if this was just you and Chris and others from Cambridge asking us to do this, it would be one thing. But the more I learn about the BDS movement, the more concerned I am of having Cambridge seen as supporting them. Organizations on the list in the materials you gave me promote educational and cultural boycotts, not translating books into Hebrew etc. Those aren't Cambridge values either. If purchasing HP products makes Cambridge guilty by association to Israel's human rights violations, won't we be guilty by association of passing a resolution that is being driven by a group that does not support a two state solution (which I do) and affiliates itself with groups that don't align with our values? This is very complicated and to be honest it has gotten way out of hand. We have a meeting tomorrow and can talk more then but I have significant concerns.

Dear Marc,

I'm sending you the revised language of the HP resolution. We've attempted to incorporate the concerns you've expressed regarding our previous resolution.
We're looking forward to meeting with you, and Councilor Devereux tomorrow. Sonia Dettmann
